

Clinical Engineering -

M.E.M./DRMG, Design & Development, Clin Measurement A (Rather Busy) Day in the Life

Peter Cook
Head of Medical Physics, NHS Highland

Clinical Engineering Areas

Technology Management
(~ MEM/DRMG)

Design & Development

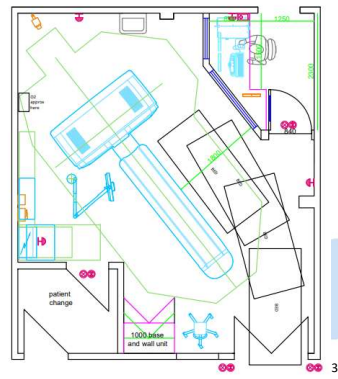

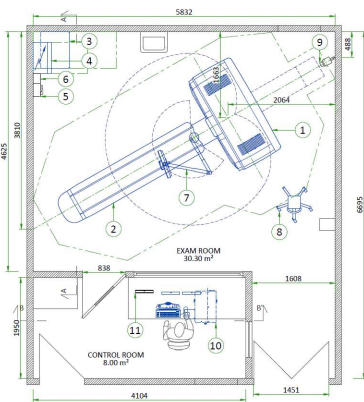

Clinical Measurement

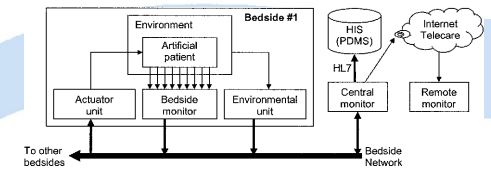

Rehabilitation Engineering

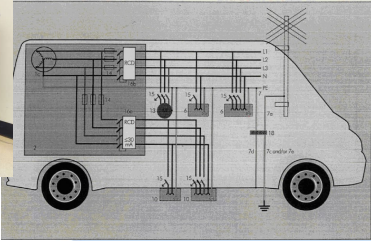

Fort William CT Replacement

Patient Monitoring

Medical Transport Question(s)

5

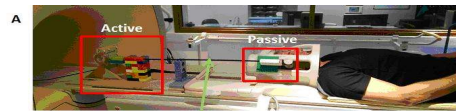

Covid and Thermometry

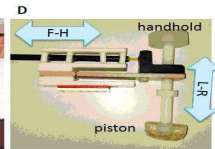

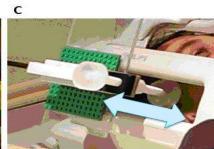

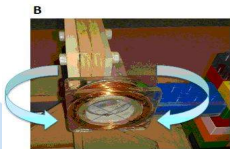

6

Research Devices

- Requirements are safety and quality of the research

Flexible Nylon and Carbon filled Push-Pull-Rod

This example was an accessory used for Magnetic Resonance *Elastography*

Risk Assessment: Kidney Perfusion

- Putting into service, Requirements are safety and efficacy

8
